

**AMENDMENTS TO THE CLAIMS:**

**Please amend the claims as follows. Please cancel 9-16 without prejudice or disclaimer. Please add new claims 21 and 22.**

1. (Currently Amended) A fuel tank structure, comprising:  
a lower member including a plurality of bottom portions including a single bottom portion constituting the lowest position in the lower member; and  
a display portion of a working position for locating a waste fuel hole, the display portion being provided at a lowest outer surface of a ~~tiered-bottom~~ the single bottom portion constituting the lowest position of the fuel tank in correspondence with a fuel remaining portion.
2. (Currently Amended) The fuel tank structure according to Claim 1, wherein the display portion is disposed below a chamber module arranged on the inside of the ~~tiered-bottom~~ fuel tank and surrounds the chamber module.
3. (Currently Amended) The fuel tank structure according to Claim 1, wherein the display portion comprises a bead portion formed by projecting a predetermined amount of the bead portion to an inner side of the ~~tiered-bottom~~ fuel tank.
4. (Currently Amended) The fuel tank structure according to Claim 2, wherein the display portion comprises a bead portion formed by projecting a predetermined amount of the bead portion to an inner side of the ~~tiered-bottom~~ fuel tank.

5. (Previously Presented) The fuel tank structure according to Claim 3, wherein the bead portion includes a plurality of non-continuous bead portions.

6. (Previously Presented) The fuel tank structure according to Claim 4, wherein the bead portion includes a plurality of non-continuous bead portions.

7. (Previously Presented) The fuel tank structure according to Claim 3, wherein the bead portion includes a plurality of the bead portions and cut portions formed among the respective bead portions.

8. (Previously Presented) The fuel tank structure according to Claim 4, wherein the bead portion includes a plurality of the bead portions and cut portions formed among the respective bead portions.

Claims 9-16 (Canceled).

17. (Currently Amended-Withdrawn) [[A]] The fuel tank structure according to claim 1, further comprising:

two another display portions portion of two another working positions position for locating two another waste fuel holes hole, the two another display portions portion being provided on two at another bottom outer surfaces surface of a saddle-type another bottom portion of the plurality of the bottom portions of the fuel tank in correspondence with at least

~~one~~ another fuel remaining portion.

18. (Currently Amended-Withdrawn) The fuel tank structure according to Claim 17, wherein ~~at least one of the two~~ another display ~~portions~~ portion is disposed below a chamber module arranged on the inside of the saddle type fuel tank and surrounds the chamber module.

19. (Currently Amended-Withdrawn) The fuel tank structure according to Claim 17, wherein the ~~two~~ another display ~~portions~~ portion ~~each~~ comprises [[a]] another bead portion formed by projecting a predetermined amount of the bead portion to an inner side of the ~~saddle type~~ fuel tank.

20. (Currently Amended-Withdrawn) The fuel tank structure according to Claim 18, wherein the ~~two~~ another display ~~portions~~ portion ~~each~~ comprises [[a]] another bead portion formed by projecting a predetermined amount of the bead portion to an inner side of the ~~saddle type~~ fuel tank.

21. (New) The fuel tank structure according to claim 3, wherein another bead portion comprises a series of non-continuous bead portions.

22. (New) The fuel tank structure according to claim 19, wherein the another bead portion comprises a series of non-continuous bead portions.
